The Eucharistic Revival- The Eucharist, did you know?

Why is personal presence different from local and temporal presence? Personal presence often goes beyond the experience of just being with another in a certain place and time. In these two types of presence, our senses are always engaged. But personal presence goes beyond sense perception. When someone lives far away from us or when a loved one dies, for example, that person can continue to be present with us when we remember the person, recall their words to us, or let the feeling of their presence affect us. Personal presence, because it goes beyond what the senses provide, relies on an inner or spiritual connection and so is most like what we experience in relation to God. This kind of personal connection allows us to have a spiritual experience of God's presence- a presence that goes beyond anything our physical senses can detect. *Used with permission from God's Real Presence, by Steve Mueller.
