

**Introduction**

Through our Salvation History, God has established Covenants with mankind. With the Covenants that God established with mankind, there was the Mediator, the person with whom God made the Covenant with, then there was the Mediators Role. The role is the position, figure or job which the mediator had in the culture and society at that time. This plays an important part in our Salvation History. With each Covenant that God makes with the Mediator, there is a sign established to represent each Covenant. In the case of Adam, the sign of the Covenant between mankind and God was the Sabbath, the 7<sup>th</sup> day. Each Covenant points back to the original Covenant with mankind, as well as the final Covenant.
